VOL. 24, No. 45

SIERRA MADRE, COUNTY OF LOS ANGELES, CALIFORNIA

AUGUST 8, 1930

Costs \$46.43 Per Capita To Run City

El Segundo Hits High Spot—El Monte Operates For \$22.78

The per capita cost of Sierra Madre's local government last year was \$46.43 as computed by the State Controller's office. The figures, just released, were based on the population as shown by the recent census and on an expenditure of \$164,459.82.

The cost per individual of maintaining the government of five other Southern California cities having a population of more than 3,000 and less than 5,000 was also computed.

The total payments for all governmental functions in 1929, including general government, protection to persons and property, health, sanitation, highways, charities and corrections, education, recreation, public service enterprises, redemption of and interest on bonds, and the per capita cost are set forth in the following:

Azusa: total payments, \$154,280.92; per capita, \$32.12; Hermosa Beach: total payments, \$172,379.04; per capita, \$35.95; San Marino: total payments, \$170,849.89; per capita, \$45.93; El Segundo, \$207,328.49; per capita, \$59.18; El Monte, \$78,703.93; per capita, \$22.78.

DEATH ENDS LONG ILLNESS OF MRS. C. O. FERRIS AT HOSPITAL

Mrs. Carzella O. Ferris, aged 62, passed away last Thursday in the Glendale Sanatorium, where she had been ill for the past seven weeks. She is survived by her husband, Sylvane M. Ferris, of 47 Bonita avenue, one brother, Charles Gunter, of Malden, Mass., and four sisters, Miss Annie Gunter of Boston, Mass., and Mrs. Herbert Parlee of St. John, N. B. Canada; Mrs. Viola Springer and Mrs. Myrtle Dykeman, both of Upper Jense, N.B. Canada.

Funeral services were held at the Ray Grant Undertaking Parlor on Monday afternoon. Rev. W. H. B. Urch preached the funeral sermon. The Sierra Madre Chapter of the Order of the Eastern Star, under the direction of Mrs. H. J. Buckingham, Worthy Matron, gave the funeral rites of the Order. Mrs. J. M. Steinberger accompanied by Mrs. F. M. Finlayson sang "Lead Kindly Light" and "Beautiful Isle of Somewhere," both favorite selections of the deceased.

Carzella O. Gunter was born in White's Cove, New Brunswick, Canada, October 17, 1868. She graduated from Fredrickton Normal school in New Brunswick. Prior to her marriage on February 3, 1892, she taught school. Mr. and Mrs. Ferris lived at Madona, North Dakota, where Mr. Ferris managed a stock ranch for Theodore Roosevelt. In 1905 the couple moved to Dickinson, North Dakota, where Mr. Ferris had been appointed registrar of the U. S. Land Office. In 1902 they came to California and finally settled in Sierra Madre at 47 Bonita avenue, where they have lived until Mrs. Ferris' death.

Her passing will be mourned by many friends. The inspiration of her cheerful and loving character will live in the memory of those who knew her.

New Mail Schedule Announced By The Local Postmaster

The postmaster announces that a change in train schedule on the Santa Fe, effective August 10th, will change the time of arrival of the second mail from Los Angeles from 10:30 a.m. to 11:15 a.m.

The outgoing Eastern mail will close at 9:45 a.m. instead of at 9 a.m. as at present. The mail will be dispatched on Train No. 2, a limited which will not stop at Santa Anita. Therefore a catcher pouch will be used and only first class mail can be sent in this dispatch.

OPERATION IS FATAL TO RICHARD BLUMER

The friends of Mr. and Mrs. Phillip W. Blumer, of Eagle Rock, will regret to learn of the loss of their youngest son, Richard, 17 years of age, who died suddenly Wednesday, August 6, of general peritonitis following an operation for appendicitis. He was prominent in athletics in Eagle Rock High school. The deceased is a nephew of Mrs. C. W. Bowen, of Sierra Madre, and was a grandson of the late J. G. Blumer.

RALLY BY WOOD WINS AT TENNIS

Not until he found himself on the short end of a 5-3 set point score in the deciding set of his match with Curran Adams last Sunday did Randolph Wood rally and sweep his more inexperienced opponent off his feet to win by a score of 7-5. The final scores for the match were 6-2, 6-3, 7-5. Reitherman and Adams defeated Perry and Blanke 7-5, 6-4 in a semi-final doubles match on Sunday morning. In the afternoon Smith and Wood won the finals in this division by defeating Reitherman and Adams in a three-set match, 6-1, 6-3, 7-5.

Smith plays Draman in a singles match Sunday at 10 a.m. Perry will meet Reitherman later in the day.

Park Events Growing In Popularity

Dance Tonight Closes The Most Extensive Week's Program

The sixth of the series of community dances in the City Park tonight will conclude the most pretentious and successful week's open air entertainment in Sierra Madre's history. The concluding number of the week's program is to contain a number of original features that are expected to make it a memorable number of the series of dances.

An audience that filled the available seats and left many standing under the trees and about the park house surrounded the gaily decorated bandstand for the concert given by the Pasadena Elks' Band and sponsored by the Volunteer Firemen last night. The varied program given under the direction of Dr. C. Frederick Ecklund met with the hearty approval of the audience whose applause brought several encore numbers. From the "Tournament of Roses March," by Ecklund, opening the program until "The Star Spangled Banner," the crowd left no doubt of its appreciation.

A garden party in which the park was made festive with flags, colorful Japanese lanterns and special furniture was given on Tuesday evening by the local chapter of the Red Cross. W. R. Humphries was master of ceremonies, introducing the entertainers, who were members of the party. Professor Gustave Rihard and his Congregational Church orchestra provided the accompaniment to the musical numbers and played during the progress of the party.

A telegram to the local Red Cross chapter from Judge John Barton Payne, national chairman of the Red Cross, was read by W. R. Humphries. "Please extend my most cordial greetings to our fine Red Cross members gathered at Sierra Madre," it said. "It is most gratifying to know we have such a splendid active chapter. We are confidently counting on you for another fine membership this fall."

Lester K. Layton, city councilman and local candidate for Assemblyman from the 53rd district, presented certificates to swimmers and life-savers who took part in the recent "Swim-in-safety" campaign sponsored jointly by the Red Cross and THE SIERRA MADRE NEWS.

Last Friday night's dance with a number of contests that developed no end of enthusiasm was one of the most successful yet held.

Winners of the waltz contest were Mr. and Mrs. M. A. DeTemple of this city. Second place went to Mr. and Mrs. T. H. Warwick of Long Beach. Judges were Mrs. Lillian L. House, Emile George and Roy Walsworth.

Hosts and hostesses for the Legion and Auxiliary were Mr. and Mrs. Thomas P. Buie, Mrs. Louise Roe, Mrs. Lella Embree, Roy Pickett and P. Lass.

Cool And Cloudy Weather Promised For This Weekend

Col. Hersey smiled with relief as he made this prediction for the weekend at Sierra Madre's U. S. weather observatory yesterday: "We will have fair weather with moderate temperature." He paused, smiling, and finished with a slightly triumphant note in his voice. "There will be general cloudiness tomorrow and Sunday mornings, but no rain, of course."

Razors Rust, Lilacs Grow For Contest

Hanging Baskets Will Soon Adorn All The Males In Upland

With Upland's 40-day whisker growing contest only a week old, the nearby foothill city is beginning to take on the frontier aspect that is desired as the background for its Pioneer Pilgrimage celebration of September 9, when the luxuriant lilacs now under cultivation will be harvested.

A vigilance committee of the American Legion on Tuesday reported that it had been unable to locate a single male citizen who has violated his obligation and used or permitted a razor to be used on his face since midnight of July 31. On the contrary, the committee reported, there are charges that some men of the city took an unfair advantage of their brethren by starting to let their beards grow a week or more before the town fire siren blew at midnight last Thursday to start the contestants.

An elaborate entertainment is being prepared for the Pioneer Pilgrimage on Admission Day, of which the whisker growing contest is an incident. An effort is being made to bring together the early settlers of Southern California and wherever their names and addresses are located the Upland committee is sending out personal invitations and arranging accommodations for the old-timers.

High light in the program for September 9 is a historic pageant in which there will be depicted the progress of transportation and the story of the state's early beginning. With the Madonna of the Trail monument as the setting for the historic occasion elaborate arrangements are being made.

P. H. McQuillen, head of the program committee, and vitally interested in the doings of the pioneers, will provide an opportunity for the veterans to live again in the spirit of early California. Following a picnic dinner, games popular years ago will be conducted and there will be competition in square dancing and in a fiddlers' contest.

Pictures Of City Bring Home Buyer

Woman Bound For San Diego Lured By News Wistaria Number

"I left Indianapolis with every intention of settling in San Diego, but one look at the rotogravure issue of THE SIERRA MADRE NEWS sent me by Mrs. Joseph Stimfling was enough to make me decide on Sierra Madre."

Mrs. L. M. Abbott, former director of classified advertising for the Indianapolis News, looked over the home at 185 North Mt. Trail avenue which she has just purchased.

"I got this house through THE NEWS, too," she laughed. "As soon as I reached Sierra Madre I picked up a copy of the paper and saw T. W. Neal's ad of a place for sale."

Mrs. Abbott arrived in Sierra Madre with her mother, Mrs. Ida H. Summers, on July 16, and are now living in their new home in what they are sure is the most delightful community in the Golden State.

Present Charter Obsolete; County After Modern One

Because the present charter of Los Angeles county, adopted in 1912 when the population of the county was only 500,000, has become obsolete and antiquated for the administration of governmental affairs for a community of 2,199,657 people, the county Board of Supervisors has directed the county counsel to make a preliminary survey as to the need of changes in the instrument with a view to adopting a new one.

The present charter was approved by the legislature in 1913. At that time the instrument was considered one of the most advanced documents for county government of its kind in the United States. It was studied with keenest interest by hundreds of counties throughout the nation, and in many communities was used as a pattern.

Appeal To Local Pride

TO THE CITIZENS OF SIERRA MADRE:

It is a matter of utmost importance to this community that the Fall Flower Festival and Garden Contest which has been fixed for mid-October shall be an outstanding success. The word has gone out to the world through the State Chamber of Commerce and in bulletins from the various automobile clubs that the event is to be held. This publicity is sure to attract thousands of strangers to our beautiful city. It is most desirable that they shall see it at its best and leave with an indelible impression of its charm.

They may be thus impressed if every one of us does his or her duty as a loyal citizen. The project has been endorsed by the membership of every civic organization within the city, but this mere endorsement is not sufficient; it will require planning and painstaking effort on the part of all of us to make the affair as creditable as it should be.

By winning first prize in a Statewide contest to determine the finest home garden in California, one of our citizens brought the title of "California's Garden Spot" to our city. Our guests during the Festival will, therefore, undoubtedly expect much of us. We have the soil, the climate and the water to more than meet their expectations. It is merely a matter of foresight and a little effort.

If our gardens are to be brilliant and gay and if the Festival is to be the success that we owe it to ourselves to insure, THE EFFORT SHOULD BE PUT FORTH NOW.

Since it is a community project in the broadest sense and of vital concern to every resident of Sierra Madre, the undersigned executives of the various civic organizations therefore earnestly appeal to every citizen to plan and to plant their gardens with plants and flowers that will bloom during the Fall season, to cultivate specimens for the flower show and to put their properties in the best possible order and to DO IT NOW.

Respectfully,

(Signed)
ALBERT S. MYERS, Mayor, City of Sierra Madre
ROBERT J. DAVIES, President Chamber of Commerce
CHARLES B. KLUNK, President Kiwanis Club
ROY M. PICKETT, Commander, Post 297, American Legion
MRS. BLANCHE BUIE, President, American Legion Auxiliary
MRS. E. E. BACON, President, Sierra Madre Woman's Club
MRS. JOHN OSGOOD, President, Sierra Madre Planning Commission

CANYON SALES BRING TWO NEW FAMILIES HERE

Mr. and Mrs. W. W. Pope of Los Angeles, vacation guests at Canyon Park for a number of years, have purchased a house and lot on upper Brookside Lane formerly owned by Noble S. Star, of Pasadena. Mr. and Mrs. Pope plan to remodel the house for a permanent home. The transaction was made through the office of Miss Laura E. Cadmus.

Mrs. E. C. Emory, of Long Beach, has purchased "Green Bells" on Vista Circle drive from Mr. and Mrs. William Lunney. Mrs. Emory plans many alterations and repairs to the property and will reside here permanently.

"SAVE A LIFE" JUDGE GIVES KIWANIS HIS TEN COMMANDMENTS

Both pedestrian and automobile driver must take more care. Every year there is an increase of fatal vehicular accidents in Los Angeles county. In 1928 there were 600 and in 1929 794 deaths, practically a one-third increase. This was the warning given by Municipal Judge Dudley S. Valentine, of Los Angeles, in an address before the Kiwanis Club on Tuesday.

Judge Valentine enunciated the "ten commandments" of safety. Five of these apply to pedestrians and are as follows: Don't jaywalk. Don't cross the street directly behind a streetcar. See that vehicular traffic is at a standstill before stepping from the curb. Avoid cutting diagonally from corner to corner at street intersections. Always look both ways when crossing streets.

The other five apply to automobile drivers: Look out for children. Give the pedestrian a chance. Drive your car the way you would like to have the other fellow drive his. Keep your brakes in good order. Study and obey traffic rules.

The club was entertained by Dr. C. Frederick Ecklund, head of the Pasadena Elks Band, who played on the piano and French horn at the same time.

The Durston twins, Marguerite and Marion, of Pasadena, played "Swiss Boy" and "Stein Song" on the clarinet and cornet respectively.

Details of the Central avenue improvement will be outlined to property owners in the district at a meeting Monday at 2:30 p.m., in the council chamber of the City Hall, Pasadena.

Fiction Fanciers Leading Patrons At Local Library

Adult fiction now leads the field in interest at the Sierra Madre Public Library, according to the July report issued yesterday. This class of reading constituted 58 per cent of the circulation, adult non-fiction made up 22 per cent and juvenile books 20 per cent. The total circulation was 4225 books. Twenty-two new patrons registered at the library during July.

New books now on the shelves are as follows: Fiction—"Night Club Mystery" by E. Jordan; "Murder in Paris," by A. Campbell; "Chances" by A. Gibbs; "No-nation Girl" by E. Wall; "Not Without Dust and Heat" by W. Martyr; "Shaggy Legion" by H. G. Everts; "Werewolf" by C. L. Swem; "Mountain City" by U. Sinclair; "Queer People" by C. Graham; "Break of Day" by M. King; "Years of Grace" by M. A. Barnes; "Three Against Fate" by M. A. Hamilton.

"Way Home" and Australia Felix" by H. H. Richardson; "Golden Rubbish" by W. D. Pelley; "Well-Meaning Young Man" by M. and L. King-Hall; and in the non-fiction line—"Educational Dramatics" by D. M. Tower; "Students' History of Printing" by M. W. Haynes; "In Spite of all Rejoicing," "Vagabond's Provence" and "One-act Plays for Stage and Study" by A. M. Peck; "Rutherford B. Hates" by H. J. Eckenrode; "Spreading Germs of Hate," by G. S. Vierick; "Meaning of Culture," by J. C. Powys; "Modern Temper" by J. W. Krutch; "Life and Mind of Emily Dickinson" by G. Taggard; "Green Pastures" by M. Connelly; "Christ of Every Road," by E. S. Jones; "Myron T. Herrick" by T. B. Tate; "Saturday to Monday" by Levy and Held; "Machine-made Man" by S. Bent; "Windmills and Waterways" by L. Irving; "Life and Times of Akhnaton" by A. Weigall; "Birth of the American People" by J. Morgan; and "Death Valley" by W. A. Chalfant.

Los Angeles Couple Wed

Kenneth McCaskill, and Frances B. Bartlett, both of Los Angeles, were married on Monday by Judge William Lasater in the American Legion quarters in the City Hall. Those present were E. I. Lawrence of Los Angeles and Mr. and Mrs. W. B. Corum of this city.

Mr. McCaskill is an insurance salesman in Los Angeles, where the couple will be at home to friends after a short honeymoon in Mexico.

Little Golf Scores Big Hit In City

Opening Of The Miniature Course Becomes Social Event

Sierra Madre took to baby golf like a duck to water. It seemed the whole city turned out to open the new Steinberger miniature course at Central and Auburn avenues last Friday night. It became a real community affair with a distinct social atmosphere. And the brilliantly illuminated, gaily decorated corner has continued to be the central attraction of the town ever since.

Nearly 400 persons went over the splendid new course on the opening night after Selwyn Myers, son of the Mayor, whacked the first ball. There was no formality about the occasion and in the subsequent evening's play the patrons seemed to try only to get acquainted with the intricacies of the layout rather than to make par, as they have since done.

By this time Manager Harvey H. Steinberger has the experts pretty well spotted, par has been determined and many matches have and are being planned between individuals as well as by the various organizations following the lead of the Kiwanis club, which held a tournament on the new links on Monday night. This latter event drew a crowd that almost equaled the attendance on the opener.

Kiwanis Tournament

The patronage has been so satisfactory to Manager and Mrs. Steinberger that last night they posted the following message of appreciation at the links:

"We extend our thanks and appreciation of your cooperation in the opening of our miniature golf course and will always try to conduct the course so that it will be a credit to the town."

First prize of a putter, offered by the management of the course for the lowest score made in the first two days of play, went to Waverly Pratt with a 43, six strokes under par.

The tournament put on by the local Kiwanis Club featured competition for both men and women. Each contestant played 36 holes, or two complete rounds of the course.

In the men's competition, Frank Spencer and Dr. J. L. Woehler tied with 102 but Spencer won the playoff. The other scores were: Waverly Pratt, 103; Vincent Fleming, 113; A. H. Gibbs, 115; Charles B. Klunk, 115; Al Wheeling, 117; Gordon Brooks, 118; H. Clay Reavis, 127; Rev. Father Hyacinth Clarey, 127; R. C. Copenhaver, 127; Frank Hildebrandt, 136; J. Milton Steinberger, 154.

The women's winner was Ruth Wheeling with 111. The other scores were Mrs. J. Milton Steinberger 112, Miss Mattie Seely 120, Mrs. H. Clay Reavis 122, Mrs. W. E. Pratt and Mrs. R. C. Copenhaver 124, Mrs. Charles B. Klunk 125, Mrs. H. H. Steinberger 128, Mrs. Vincent Fleming 125, Mrs. Frank Hildebrandt 144, Mrs. Gordon Brooks 144, Mrs. J. L. Woehler was winner of the consolation prize with a 154.

Last night the members of the Pasadena Elks Band and their wives were given a complimentary round of golf, following the concert in the City Park sponsored by the local firemen.

At The Opener

Among the spectators and players at the opening night were: Mr. and Mrs. H. E. Allen, Mr. and Mrs. Alfred Leathersdale, Mr. and Mrs. Waverly Pratt, Mr. and Mrs. Philip Senour, Mr. and Mrs. Ralph Russell, Mr. and Mrs. Alvin Finn, Mr. and Mrs. H. Clay Reavis, Mr. and Mrs. R. M. Finlayson, Mr. and Mrs. George McRoberts, Mr. and Mrs. J. C. Rogers, Mr. and Mrs. Vincent Fleming, Mr. and Mrs. E. H. Porter, Mr. and Mrs. Herbert Munson, Mr. and Mrs. H. C. Scott, Mr. and Mrs. Norman Morrison, Mrs. (Continued On Page 3)

Local Boy Scout Picks Off Ribbons At Big Horse Show

Hugo De Groot, age 14, member of local Boy Scout Troop No. 1 and son of Mr. and Mrs. E. B. DeGroot of East Live Oak avenue, was one of the major prize winners in the recent Beverly Hills horse show, carrying off one first, a second, a fourth and two fifth places in the Shetland pony class. One of the mounts he rode was a jumper trained by himself. E. B. DeGroot is a scout executive in the Los Angeles district council.

Building Up City's Water System Now

Temporary Improvements To Raise Basin Levels When Rains Come

By EARLE J. LYNDE
City Engineer of Sierra Madre

Statistics, figures and charts have little appeal to the average person but they are sometimes necessary to convey a clear picture of many of the problems confronting our daily lives. Even our family physician in checking our health takes our temperature over a period of days and then, in order to present a comparison, converts the figures into a chart resembling a saw-tooth mountain range, its peaks denoting high temperatures and its depressions lower temperatures as well as the time of day at which these peaks and depressions occur.

Practically all of the operations of our Water Department are charted in this manner daily and the functioning of each operation is presented at one glance more clearly and in a more understandable manner than can be told in words or figures. These charts, showing the daily production, storage, consumption and many other operations of the department, are on file in the City Engineer's office and will gladly be shown and explained to anyone interested.

Daily readings of the water level in the wells since January 1, 1928, have been charted and from this we are able to see just what is happening to our underground storage almost 200 feet below the surface of the ground.

Water Level Slides
For instance, we find the level came up six and one half feet during the first three months of 1928. During the next five months it dropped 34 feet, due to the heavy summer pumping. Then in September, 1928, began a steady rise which continued until April, 1929. However, the winter rains were not sufficient to replenish the amount withdrawn during the preceding summer and at the beginning of the pumping season of 1929 we find the water 13 feet lower than in 1928.

At the end of another heavy pumping season the level had dropped another 31 feet. In September last year the water started again to rise in the wells but the chart shows the recovery to be much slower than the year (Continued On Page 3)

Scooter And Bike Regulated By New Traffic Mandate

Sierra Madre's new traffic ordinance has been prepared for presentation to the City Council by Solicitor Phil Dodson and Police Chief McMillan. It will take the place of half a dozen conflicting and only partly clear ordinances on the subject that will automatically be repealed by enactment of the new regulations. Except in minor details made to deal with particular situations here, the regulations are the uniform ones now in force in 70 other Southern California cities and that have been recommended both by the State Highway Department and the various automobile clubs.

No change is proposed in existing parking regulations except that parking on the public thoroughfares will not be permitted for more than half an hour between the hours of 2 and 6 a.m. The purpose of this provision is to prevent all night parking in the streets.

As it will be presented to the Council the ordinance will give the police control of any and every kind of vehicular traffic, including bicycles and scooters.

DONALD BAXTER IS BURIED AT TORRANCE

Donald B. Baxter, 36 of Torrance, Calif., former resident of Sierra Madre for many years, died last Saturday at the St. Vincent's Hospital in Los Angeles, following a mastoid operation. His wife and three year old son, Donald, his mother, Mrs. Caroline Collins and brother Douglas Collins, survive him. The funeral was conducted by the American Legion in Torrance, with the Rotary Club acting as pall bearers. A police escort headed the funeral procession and flags hung at half mast throughout the city. A large delegation from Sierra Madre was present. Interment was made at the Roosevelt Memorial Cemetery at Torrance.

ALONG THE FOOTHILLS

San Marino still has "growing pains." Building permits for July amounted to \$221,000.

In the midst of their budget making the Riverside county supervisors have prepared their taxpayers for "a slight" increase in the tax rate, to be fixed next month.

All the packing houses in the Covina district are being enlarged in anticipation of big citrus crops and an \$85,000 pre-cooling plant with a capacity of 80 cans is being built.

Hemet valley apricot growers refuse to sell their dried fruit at the offered 8 cents a pound, claiming it is below cost of production. They have disposed of a thousand tons of pits at \$21 a ton.

Arcadia's budget for 1930-31 contains an item of \$5,000 for the beautification of Santa Anita Avenue (Double Drive) which is considered the city's biggest appeal to prospective residents.

Funeral services for Senora Maria Antonia Foxen de Cooper, one of the last of the famous families intimately connected with the birth of the great state of California, and mother of several children in Eagle Rock and Los Angeles, were held Tuesday afternoon in Santa Barbara.

Pasadena bargained too early for the sale of its oranges from the municipal orchard and "lost" from \$8,000 to \$10,000. It contracted for its crop at \$2.15 a box, which yielded \$17,500, whereas it might have had the top price of \$3 and \$4. An annual income of \$50,000 a year from its grove is the Crown City's aim.

CALIFORNIA COLLEGE BOYS WIN PLACES IN U. S. FOREST SERVICE

F. W. Grover of Berkeley, honor roll student of the Forest School, University of California, headed the list of competitors in the nation-wide U. S. Civil Service examination for the position of Junior Forester in the U. S. Forest Service. Two other students of the school, Peter Van Huizen of Ukiah, and C. C. Buck of Oakland, passed third and fourth, respectively, and of the eight men from the school who took this examination, seven were successful. A total of 185 applicants from all parts of the country competed. Appointments in the California Region of the U. S. Forest Service have been given to Grover and Buck. Van Huizen will enter the U. S. Biological Survey.

Junior foresters are employed in technical work in the national forests and must have a ground-work in the science of forestry, or the growing of continuous crops of timber, together with its allied sciences of botany, geology, dendrology, and engineering, a knowledge of lumbering, grazing of livestock, and the administration and protection of forests, not only from fire but also from disease and destructive insects.

NOTICE OF SALE OF REAL ESTATE AT PUBLIC AUCTION No. 107727

In the Superior Court of the State of California, in and for the County of Los Angeles.

IN THE MATTER OF THE ESTATE OF MARIE HAMMOND, Incompetent.

Notice is hereby given that the undersigned, Robert Mitchell, as Guardian of the Estate of Marie Hammond, Incompetent, will sell at public auction to the highest and best bidder, subject to confirmation by said Superior Court, on Saturday, the 23rd day of August, 1930, at the hour of 10 o'clock A. M., at the western entrance of the County Court House, in the City of Los Angeles, the following described real property belonging to said estate, to-wit:

Lot 4, Block "B" of A. Hawks Addition to the Sierra Madre, in the City of Sierra Madre, Los Angeles County, as per map recorded in Book 14, Page 1 Miscellaneous Records of said County.

Terms and conditions of sale: Said property will be sold subject to taxes for the present fiscal year and to deed of trust hearing date May 15, 1930, payable three years after said date, with interest at seven (7) per cent per annum, payable semi-annually, the amount due on said promissory note being \$2500.00; the balance of the purchase price to be payable as follows: Ten per cent (10%) at the time of sale and the rest upon confirmation by the court.

ROBERT MITCHELL, Guardian of the Estate of Marie Hammond, Incompetent, 515 H. W. Hellman Bldg., Los Angeles.

Three hundred dog licenses have been issued in Arcadia and the police are out rounding up 300 unlicensed canines.

Covina is not happy over the prospects for its walnut crop. It is estimated now at about 2000 tons as against 3500 tons last year, and 5,000 tons in 1927.

San Gabriel's council has passed an ordinance declaring that owners of three or more dogs are maintaining a "dog kennel" and fixing a minimum license fee of \$30.

If transportation service by the Glendale-Montrose Railway is discontinued in the near future, as now seems probable, the Motor Transit Co. will provide half-hour bus service from Tujunga to Los Angeles over a route through the Crescenta valley.

The total assessed valuation of Claremont property for 1930 is \$4,474,720, according to the assessment rolls just equalized, Ed W. Hopkins, county assessor, reports. This figure is considerably under the 1929 total, and is accounted for by the exemption of college property.

The assessed valuation of Azusa is above that of both Glendora and Covina, according to a report from the assessor's office. The figures for these other two cities are as follows: Azusa, for 1930, \$2,695,222 for 1929, \$2,775,765; Covina, for 1930, \$2,191,450, for 1929, \$2,236,495.

Land and improvements in Glendora last year were assessed at \$1,929,250, as compared with \$1,786,020 in 1930. The assessor allowed a depreciation on all structures built prior to 1930. Personal property is assessed this year at \$293,410, as against \$197,885 last year.

Mayor Walshe, of Arcadia, has let the people of the adjoining city know that they may expect a 15-cent reduction in the tax rate. Last year it was \$1.65 per \$100 valuation. It will be reduced to at least \$1.50 this year, according to the mayor. The total assessed valuation of Arcadia is \$8,896,670.

A tentative valuation of \$807,400 has been placed in land in Covina this year, against a valuation of \$992,580 in 1929. Valuation of improvements is placed at \$936,420 for 1930. Personal property and money subject to the ad valorem levy shows a valuation of \$447,630 this year, against \$339,785 last year.

NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE No. 81024

In the Superior Court of the State of California, in and for the County of Los Angeles.

In the Matter of the Estate and Guardianship of MARY J. POOL, Incompetent.

NOTICE IS HEREBY GIVEN that under and pursuant to the law made and provided, the undersigned, R. O. Pool, as Guardian of the Estate of Mary J. Pool, Incompetent, will sell, at private sale, to the highest and best bidder, subject to confirmation by the Superior Court, on or after Saturday, the 23rd day of August, 1930, at the office of Robert Mitchell, Esq., attorney for said guardian, at suite 515 H. W. Hellman Building, 356 S. Spring Street, Los Angeles, California, an undivided one-half interest in and to the following described lots in the City of Sierra Madre, County of Los Angeles, State of California, to-wit:

Fire Flames

By One of the Boys

WE HAVEN'T heard of any thing real exciting about any of the fire-boys this week, but we did listen in on a telephone conversation of the wife's with a keen interest and a similar hearing we understood that she is to attend a stork shower party. This sounds very much like another check from the fund. The Chief says that from now on, only matured bachelors should enter the portals of the fire department.

We are wondering just what happened to Jim Heasley. He looks like the "Wreck o' the Hesperus." A lady up in the canyon said she suggested to him to seclude the services of a "tree sitter" for attraction purposes and "didn't the darn fool, go and try it himself and fall out." Another one said that he was taking down some decorations from the canyon trees and fell asleep, dreaming he was diving into his swimming pool. It proved to be a "belly flop" on the Woodland Drive pavement.

A whole bunch of the boys, consisting of "Doc" Swanson and Vern Udell work faithfully on the truck each evening and if these two enthusiasts don't break down, we shall soon celebrate the big event.

Now since the big firemen's convention is over, Chief Richards and Frank Lovell are back home with many experiences to relate. Frank tells that Chief Richards was very prominent at all meetings and upheld the dignity of volunteer fire departments to the extent that those who were opponents are now friends. We also learned that while the Chief and Lovell were attending meetings, Mrs. Richards and Mrs. Lovell were taking in the sights of "Frisco" via "shoe leather." After the first day of this, they were unable to dance. This allowed the boys a great deal of pleasure with other good dancers. It may not be true but it is told that Mrs. Lovell walked so much that when Mrs. Richards went to buy a bunions plaster, she found that Mrs. Lovell had bought the available supply.

For those who may not know it, this is practice night. Let us busy George Norris with something before he frames another hard one.

It has been four months since we have had a fire call. The Chief and the boys appreciate the carefulness of the residents of Sierra Madre for this. Despite this the chief still finds an occasional poor incinerator and some that are poorly located. He urges that people place them away from buildings and dry grass or brush.

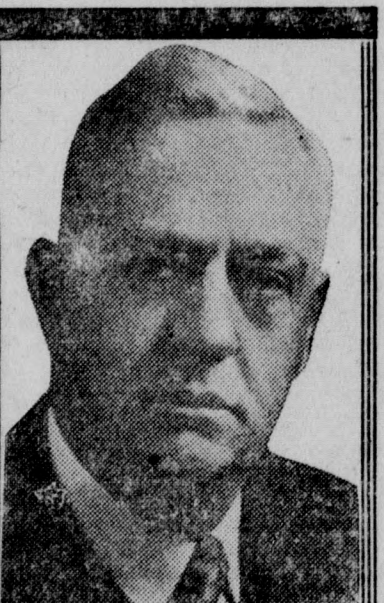

This is about all the hose we have—FIRE'S OUT.

HOOVER APPOINTEE VISITS RELATIVE HERE

Miss Elizabeth Barker, sister of Mrs. Fred Griebow of 10 East Mira Monte avenue, arrived here yesterday for a six weeks visit before she enrolls at Columbia University in New York City.

Miss Barker, director of health education at Wittenburg College, Springfield, Ohio, had the distinction of being named on President Hoover's White House committee on child health.

As a result of the damage to Puente's walnut crop by the recent heat wave the crop is estimated at from 40 to 60 per cent.

New Ford Truck With Closed Cab

NEW Ford Model AA trucks and Model A light delivery cars were announced this week by the Ford Motor Company and are on display in the show rooms of Ford dealers.

Changes in the trucks are principally in the front end, which has been completely redesigned, and in the cab. The radiator is higher with more cooling surface, fenders are wide and flowing, and a black cowl strip adds a note of distinction.

The new Model AA trucks with the four-speed transmission introduced several months ago may be had with enclosed or open cab. The enclosed cab, shown above, is all steel, it is low in appearance yet with ample head room. The open cab is of black rubber top material

and is easily removed. Both cabs are equipped with windshields of Triplex shatterproof glass and vacuum type windshield wipers.

Model AA trucks may be had with a platform body, which can be equipped with stakes or a panel body. The chassis has many improvements, including the four-speed transmission, larger front brakes, stronger springs, power take-off opening and optional dual rear wheels.

The Model A line of new commercial cars comprises a light delivery truck with pick-up body, a de luxe delivery truck, a small panel truck and a station wagon. These cars have the smaller wheels and larger tires of the new Ford passenger cars.

In A Social Way

Mr. and Mrs. William E. Deutsch of 27 West Laurel avenue recently announced the approaching marriage of their daughter, Irma Elizabeth Deutsch, to Stacey Jones, son of Mr. and Mrs. L. L. Jones of 397 Ramona avenue. The wedding has been set for Friday evening, August 15, at 8:30 p.m. at the Congregational church.

Mr. Jones is employed as an engineer by Barker Brothers, and has lived in Sierra Madre for several years. Miss Deutsch has resided here practically all of her life. She is a graduate of Redondo Union High school.

Although invitations have been issued to close friends and relatives, all friends of the bride and bridegroom wishing to attend the ceremony are welcome. Dr. W. H. B. Urch will officiate.

Mrs. C. W. Ford entertained recently for Miss Deutsch with a miscellaneous surprise shower at her home at 395 Ramona avenue. The decorations were in pink. A huge Japanese parasol, indicating a shower to come, was suspended above the table, with pink crepe paper streamers festooned to the corners of the table. A buffet luncheon was served to 20 guests. A large trunk was brought in with old shoes dangling from the corners. The contents of the trunk proved to be a large assortment of useful gifts for the bride-to-be. The evening was spent playing games and 500.

Mrs. Mildred Cooke was hostess at a surprise kitchen shower given for Miss Deutsch at the home of Mrs. C. E. Ford on Ramona avenue recently. The rooms were decorated with pink and crepe paper festooned from the chandeliers. Miss Deutsch and Mr. Jones were showered with confetti upon their entrance by the guests. Many useful kitchen utensils were presented the bride-to-be.

EDITH RUST IS A BRIDE—

Announcement is made here this week of the marriage of Miss Edith Rust, daughter of Mr. and Mrs. Ernest C. Rust of Arcadia, to Benjamin Kimbeaugh of Whittier on Sunday.

The marriage was solemnized at the home of Rev. and Mrs. Scoville in Rosemead, with only the immediate family in attendance. The bride is well known in Sierra Madre having been a resident here for eight years until last year when she moved to Arcadia. She is a graduate of Pasadena High school and is a cousin of Mrs. James C. Heasley, 536 Oakdale drive. Mr. and Mrs. Kimbeaugh will make their home in Whittier.

Rattle Snake Lost Its Head In Battle With Turkey Gobbler

SANTA ROSA, Aug. 8—(UP)—If you ever should be asked to bet on a fight between a turkey and a rattlesnake—bet on the turkey. Ritchie Hayden, rancher near here, came on the climax of a contest between these two strange adversaries. The snake had fastened its fangs in the quills at the base of the feathers. The turkey in attacking its assailant had pecked the reptile's head nearly off. Venom of the snake had failed to effect the hollow quill of the turkey.

Favorite Dishes of Sierra Madreans

WITH nearly torrid weather dashing in and out occasionally, salads out of the ordinary are much sought in the summer months and two favorites of Sierra Madre women afford a change from the conventional. Here is a delightful asparagus salad from the recipe of Josie Oros:

Drain the liquor from one can of asparagus tips. Add one tablespoonful of vinegar. Dissolve one package of lemon jello or gelatine in one cup of boiling water. When cold add to asparagus liquor. Pour over asparagus tips. Add half a cup of chopped celery, one fourth teaspoonful salt, one small minced onion, few strips of pimiento and green pepper. Mold and serve on lettuce with mayonnaise.

Here is the favorite cauliflower salad of Mary Geneva Jones:

Soak cauliflower in cold salted water. Drain well and pull apart the head, not using stems. Add English walnuts and sections of avocados cut lengthwise. Serve with cooked dressing to which a quantity of whipped cream has been added.

MRS. C. W. COLLINS NEW HEAD OF ST. RITA'S SOCIETY

Mrs. Charles W. Collins of 124 East Alegria avenue was elected president of the Altar Society of St. Rita's church at the last regular meeting of that organization. Mrs. Collins will take the place of Mrs. J. A. Marcotte, retiring president, who was given a vote of thanks in recognition of her splendid services for the term to which she was elected.

The St. Rita's card party, sponsored by Mrs. W. Bradley, Mrs. O. Burns and Mrs. M. Otte was held on Tuesday afternoon. Bridge prizes were won by Mrs. F. Seeley, Mrs. B. Metcalf and Mrs. C. Collins. The 500 prizes went to Mrs. A. Delveccio, Miss A. Gerhard and Mrs. W. Craig. The door prize was captured by Miss N. Higgins.

The next party will be held in the church auditorium early next month.

Mrs. Emily Moyer, of 108 East Grandview, entertained at luncheon Tuesday Mrs. Dudley S. Valentine and son James of Los Angeles while Judge Valentine was addressing the Kiwanis luncheon.

BED TIME STORIES

HAVE READ the Arabian Nights, Gulliver's Travels, The Tales of Baron Munchausen and many other exciting stories, but never any, equal in piquancy and thrills to those told by Comrade Ananias Lass. Our Comrade must be at least one hundred and fifty year of age, to have had such a varied experience.

Comrade Henry Olsen is having a bit of a vacation at the seashore, the call of the sea for the old Viking again.

Kelly Gibbs is enjoying a very unusual vacation, lapping up Hollywoods and running to and fro, between the soda fountain and the meat shop.

Comrade Texas Crab Scott, reports business good and his disposition improving. Two very hopeful signs in connection with the general return to business normally.

The busiest man in town, Old Never Sweat, reminds me of a Bantam hen I used to own. She would try to cover a setting of turkey eggs, as well as a few glass door knobs, fussing and crabbing all the while for fear something would spill.

Our town has suddenly developed a horde of Pee Wee golf experts. We will treat this subject at length in our next appearance. August 26 will be the big day, so don't forget, you comrades with short memories—its election day and we have a home-town candidate in Comrade Layton, for the Assembly nomination.

Mrs. James Twalts of Beverly Hills and Mrs. Lizzie Price, of Los Angeles, were luncheon guests Friday of Mrs. Guy S. Scott of 117 East Grandview.

Building Up Water

(Continued From Page One)
before, the level on January 1st, 1930 being 15½ feet lower than the previous January.

Pumping Cost Up

It will be remembered that the rainfall for the season to January 1, 1930 amounted to less than one inch. With the beginning of the rains on January 5th, the level rose rapidly until the end of March when it was only 5½ feet below last year's mark. One month later it had dropped to 13½ feet below last year's level and the Water Department prepared for a summer of heavy pumping at increased depths. As the amount of water delivered by the pumps decreases as the depth to water increases and the power costs correspondingly increase, this was not a pleasant prospect. However, we can thank the weather man for a belated Christmas present which came in May in the form of 3.57 inches of rain. This brought the water level within four inches of last year's mark—much closer than it has been for several years—and was worth hundreds of dollars in power savings alone.

Temporary Increase

Although the level has been falling steadily since then it is still within a foot of last year's record and unless we have another extremely dry fall, it should be above last year's mark before the first of the year.

Pending completion of the present plans for a systematic spreading grounds, temporary improvements are to be made in the existing grounds to take advantage of the early rains. The present basins have had no care for several years and are filled up with silt washed in from the mountains. This will be removed and the basins enlarged at minimum expense to salvage as much water as possible until a more efficient system can be constructed.

First Golf Course Here Built By Boys In Own Back Yard

By HAROLD KELTZ
Sierra Madre's first miniature golf course—a nine hole private affair with holes as difficult as may be found on any public links—has been built during their spare moments by Charles Collins and Henry Nuetzel, brothers, in the back yard of their home at 124 E. Alegria avenue.

The course has cost the boys nothing. Tin cans, boxes, and pans have been constructed into hazards and holes. Cement used for several of the holes was given to them. And the holes are by no means easy. Two in particular have worked hardships on would-be par breakers.

Every unoccupied moment finds one of the boys at work on the course, with the result that every detail has been worked out carefully.

The layout embodies no ideas taken from other courses, say the boys. It is original from the first tee to the last hole. "The plan is all our own idea," proudly asserts Henry, while his brother nods assent. "We have worked on it for a week now," declared Charles, "and we sure have had good results."

Few private baby links have proved such a drawing card. Putt-putt enthusiasts of the neighborhood are on the course continually, vainly trying to crack par, which is 31. Incidentally this feat has never been accomplished, much to the delight of the two youthful builders, whose intentions were to make it "real hard."

The country over, July was the hottest month on record. Not a single day passed without the thermometer having registered 100 or better in some section where such temperatures are unusual rather than the rule. This, of course, excepted Yuma, Phoenix, etc. The U. S. weather bureau announces that it was hotter over a greater area and for a longer time than ever before.

were 6,320 horses in Los Angeles county as compared with 7,138 in 1928. The State total shows from 6,098,431 in 1928 to 5,695,153 in 1929.

"An interesting point in this depletion of the horse population has been brought up by economists," commented George H. Hecke, state director of agriculture, in discussing the situation. "They say that as the horse disappears prices of hay and feed are falling, while surplus steadily piles up each year."

Along the Paths of Yesterday

A History of Sierra Madre from the files of The NEWS.

FRIDAY, AUGUST 9, 1907—

A committee of citizens appeared before the trustees demanding the holding of a special election to determine whether or not the city council shall have the right to grant liquor licenses to hotels.

The city is greatly agitated over the proposal to build one or two large sanatoriums for the treatment of tuberculosis here.

The grading and improving of Central avenue from Mt. Trail avenue to Mira Monte has been ordered by the city council.

There is an epidemic of fruit theft. Many property owners have reported the stripping of their groves.

FRIDAY, AUGUST 4, 1911—

City Assessor, Phillip C. Carter has finished the city assessment roll showing a valuation of \$1,230,270.

Frank C. Dunkham has been appointed justice for the district of which Sierra Madre is a part, succeeding Justice H. H. Klamroth.

The city has been without a marshal for a week because a suitable person willing to take the job for \$72 a year has not been found.

FRIDAY, AUGUST 4, 1916—

Capt. J. A. Osgood was struck by a bicycle ridden by Thompson Brown on Highland avenue near Auburn. He was knocked to the gutter and so badly injured that there are grave fears for his recovery.

Announcement is made of the marriage in Detroit of Miss Viola Jones to Dr. Earl Vere Harrington.

FRIDAY, AUGUST 5, 1921—

Citizens are rejoicing because they will be no longer obliged to bury their garbage, regular collections of which began this week. J. F. Sadler has been elected President of the Fireman's Club.

Actors, theatrical producers and managers are in a controversy over the causes leading up to the closing of 90 per cent of the legitimate theatres of the country. The actors accuse the managers and producers of killing off the goose that laid the golden egg by their avarice. The managers retort that the players of today are not as good as they ought to be, on the average.

front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order or sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

FRIDAY, AUGUST 6, 1926—
All the business houses of the city were closed for an hour on Thursday during the funeral of George A. Oswald, who died last Saturday.

Dr. Gilbert S. Eovard left on Sunday for Mason City, Iowa, where he and Miss Ruth Klemme, of this city, will be married August 11.

LITTLE MISSIONS GO TO CHILDREN ON THEIR BIRTHDAY

"Uncle Wiggly," friend of the children of Sierra Madre, has completed a busy month in the service of his small friends. He presented to each child reaching the ages of 5 to 15 during the month of July a small mission carved out of soap.

Those fortunate kiddies who received one of Uncle Wiggly's much-prized gifts were Nina Belle Neal, Leah and Marcia Bowlby, Bonnie Lass, Norma Sexton, Betty Clark, Georgine Perry, Margaret Goldsmith, Leona Shields, Idella Taylor, Dorothy Wilson, Chloe Knapp, Gloria Newell, Lois Brown, Dorothy Groth, Betty Seyler, Ethel Lauber, Joan Hinkley, Bevelah Kepler, Irene Dalzell, Julia O'Grady, Mary DeTemple, Marjorie and Lella Pickett, Frances and Edith Robertson, Betty Sharp, Edith Edwards, Hilda Guinness, George Groth, Shiu-So Nakagawa, Fusae Nakagawa, Will Dalzell, Harry Lauber, Johnny O'Grady and Allen Robertson.

Jane Marie and Billie Dean Jacobs of Alhambra, performers on the park program Tuesday night, were presented with a futuristic cat and little mission carved from soap.

Karl Katt that was is Karl Kott now. He asked for and received permission from the Los Angeles courts to switch from a *a to o* because his friends and business associates habitually joshed him about his name.

Minority Of Convicts In The Prisons

Big Majority Of The State's Law Breakers Are Out On Parole

SACRAMENTO, Aug. 8—(UP)—California has more adults on probation than there are convicts in state prisons.

Containing that probation is steadily proving the best and cheapest form of handling law-breakers, the state department of social welfare has issued its semi-annual report on probation work.

In Los Angeles county there are now 2,913 adults and 5,474 juveniles on probation, the department stated.

The state as a whole has 7,097 adults and 12,226 juveniles on probation.

"Probation costs are but a small fraction of the cost of maintenance in institutions, says Mrs. Anna L. Saylor, department director, and the number who succeeded on probation is far greater than the number who come back after serving time in prison.

"There was no concerted effort in California for perfecting probation methods until recently. Each county worked out its own methods with no established machinery for learning what practices other offices had developed. The courts have had no generally recognized policy toward probation and cases which would be placed on probation by one judge would be sent to prison by others."

Only one woman is found among every 17 men now on probation in California, Mrs. Saylor declared. Among juveniles there are 8,125 boys and 4,105 girls, or practically twice as many boys as girls.

Collections from probationers for support of families and fines and restitution amounts to \$169,993 for adults last year and \$116,007 for juveniles, the report indicated.

Nearly 7,000 applications for state aid have been received by the state department of social welfare since January 1, when the new aid to the needy aged law went into effect.

Boys May Lose Out As Caddies On New Pony Golf Course

SACRAMENTO, Aug. 8—(UP)—The advent of "Tom Thumb," "Pee Wee," "Minature," "Thumb Nail," and "Midget" golf courses in California cities have seemed to create a new labor problem in the state.

It is illegal, and the penalties are heavy to enter this new sport without taking out workmen's compensation insurance for employees, and this is necessary even if there is only one boy on the payroll.

"There is danger to small boys acting as caddies under limitations that prevail in cities," says Will French of the Industrial department. "It will prove to be the part of wisdom for golf course owners to engage the services of mature youths, or of men, who are better able to dodge flying balls."

BARE BACKED GIRLS— 300 OF THEM— WILL COMPETE FOR PRIZES

More than 300 girls, who believe in keeping their backs to the front, will take part in the "perfect back contest," to be staged at the National Progressive Chiropractic Association's sixth annual convention to be held in Los Angeles August 17 to 24. Entrants will be taken, according to Dr. C. H. Wood, from all parts of the country, with Southern California girls naturally outnumbering the contestants from distant points.

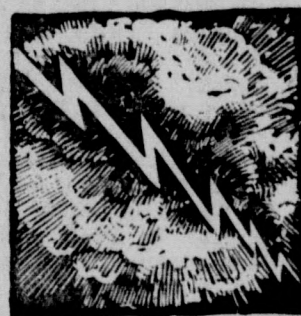

Cash, plaques and medals will be awarded the 50 "perfect backs," which succeed in getting into the finals, which will be held, on August 21. All finalists are to be feted at Venice, Sunday, August 24, where they will participate in a public parade.

STATEMENTS BY BURON FITTS

About California's Taxes Are
FALSE

Buron Fitts, candidate for governor, has in printed literature and public statements, from the platform and over the radio, stated that the private citizen paying but \$100 taxes on a modest home is paying more taxes in California than the Standard Oil Company.

This statement is FALSE. And it is a typical example of the charges without foundation, the calculated misrepresentation and the deliberate misstatements used by Buron Fitts throughout his campaign in a barefaced attempt to mislead the voters.

THE TRUTH

Records show that the Standard Oil Company paid in taxes in California during 1929 the sum of

\$4,487,786.46

Buron Fitts has directly and by inference said the Shell Oil Company, the Associated Oil Company, the Union Oil Company and other oil companies paid less taxes in this state than private citizens.

These statements also are wholly FALSE. During 1929 these companies paid taxes in California in the following amounts:

Shell Oil Company \$1,800,000.00
Associated Oil Company . . . \$1,500,000.00
Union Oil Company \$1,430,680.67

The truth is that the Standard Oil Company paid approximately \$100,000 more in taxes in 1929 than it did in 1928 and that the Union Oil Company paid \$56,000 more in 1929 than in 1928.

Buron Fitts trifles with the truth when he infers that the oil companies and corporations have been relieved of taxes in California. They pay personal property and real estate taxes "even as you and I." Only the system of levying the state franchise tax on these corporations has been changed. That change was forced by a decision of the United States Supreme Court which held that such a system as was in use in this state was illegal. A new system, adopting the principle of the federal income tax—a tax on the net income—was adopted in 1928, replacing the old franchise tax. As Mr. Fitts well knows, this change was ABSOLUTELY NECESSARY or the State would have had to refund MILLIONS OF DOLLARS in tax money already collected. Under the new law the franchise tax on some corporations has temporarily been reduced to the minimum, but these corporations continue to pay other taxes as before in addition to the franchise tax based on their earnings.

NO MAN WHO DECEIVES THE VOTERS BY INFERENCE, BY HALF-TRUTHS OR BY FALSEHOODS IS ENTITLED TO THE SUPPORT OR THE RESPECT OF THE CITIZENS OF CALIFORNIA.

See Prison Outbursts Just Ahead

Conditions At San Quentin And Folsom Almost Made To Order

SACRAMENTO, Aug. 8—(UP)—A huge dynamo, running listlessly at half speed.

That's the picture drawn of the labor power in California's state prisons, now turning only at half speed because there is nothing to occupy the inmates.

San Quentin and Folsom are overflowing, cells crowded with twice and three times as many men as they were built to accommodate. The prisoners are semicivilized, or working at routine tasks with machinery long since antiquated.

Riots and outbreaks are just around the corner for these thousands of desperate men, "rotting away" in their idleness, in the opinion of many officials.

"What's to be done about it?" The California Taxpayers' Association answers the question by demanding sufficient public support to permit industrial development.

Proper facilities are advocated for inside the walls and proper development of state use of prison-made products to provide a market for these industries. A Utopian scheme, is the retort of the law makers, since organized labor simply will not stand for general production by prisoners.

Some statistics gathered by the association are interesting. In San Quentin, they found, approximately 4,500 prisoners are confined. Of these 54 per cent were occupied in non-revenue-producing work, which had to do with the maintenance and operation of the prison. Nearly five per cent were unemployed because of sickness or other reasons.

The remainder were in the prison factories, in most cases two or three men doing the work one man could do.

In Folsom even worse conditions were discovered. Here there were more than 2,000 men, not employed in revenue producing labor. Nearly 700 were working in the rock quarry, which can comfortably accommodate not more than 200 men, excavating rock for a new building on which 480 men were working, far more than needed for its construction.

STATE LOOKS INTO CAMPS FOR WORKERS ON \$15,000,000 JOB

SACRAMENTO, Aug. 8—(UP)—With the Western Pacific railroad about to launch a \$15,000,000 construction program in California, the state has arranged for the construction and maintenance of adequate railroad camps, it is announced by Will J. French, director of industrial relations.

Specifications furnished to contractors bidding for the work include this provision: "Contractor shall have complete responsibility for the care of men in his employ, and furnish, provide and maintain adequate commissary for feeding, quarters for eating and sleeping; also proper lavatory and other sanitary facilities."

COLIN CLIVE, CHARLES GERRARD, IAN MACLAREN in "JOURNEY'S END." A Tiffany Production

FLAWLESS PICTURE COMING TO ARCADIA

"Journey's End" is pronounced by experts to be the most nearly flawless picture that has ever been produced and is said to deserve all the acclaim it has received. It is exceptional in that though it is chock full of romance the women entwined in the story do not actually appear on the screen.

The story that will be unfolded to patrons of the Theatre Arcadia as the picture is shown there Sunday, Monday and Tuesday, August 10, 11 and 12 is more than a story of war—it is a story of all war—the struggle of honor and humanity.

"Journey's End" played around the world before it was a year old. The cast of the motion picture version is headed by Colin Clive in the role of "Captain Stanhope." Ian MacLaren is the lovable "Uncle," willing to go to hell with his young commander; Anthony Bushell as Hibbert, driven by fear to sham sickness; David Manners as the hero-worshipping youngster; Billy Bevan as Trotter, mostly concerned because

HAINES IS CROOKED GAMBLER IN PICTURE

Learning to operate a "crooked" roulette wheel is one of the most difficult arts in the world, according to William Haines, who took lessons in this form of legerdemain for four days to qualify for his opening scene in "Way Out West," his new talking comedy which will show at the Fox Colorado Theatre for one week starting last night.

Haines first appears in the new Metro-Goldwyn-Mayer picture as a roulette grafter in a traveling carnival. He has to make the boys lose and win at will, in the action by manipulating the wheel just as professional gambling swindlers do.

An actual roulette wheel, "fixed," was borrowed for the picture from the evidence room of the Culver City police, who had captured it in a raid. Haines was instructed in its tricks by a former gambler.

The new picture is a comedy drama of the modern West, with Haines as a carnival swindler who turns cowboy. Lelia Hyams plays the principal feminine role, and Polly Moran, Cliff Edwards, Francis X. Bushman Jr., and others are in the cast. Fred Niblo directed.

The famous Meglin Wonder Kiddies will be featured in Fanchon & Marco's "Gobs of Joy" Idea which is the stage attraction. Max Bradford and his band accompany. Fox Movietone News presents world events.

RUGGLES FUNNIES IN "QUEEN HIGH" FILM

"Queen High," film version of "A Pair of Sixes," famous farce comedy that wowed audiences on Broadway, comes to the Fox Strand theatre, Pasadena, tonight, for a week's run.

Two of the players in the original Broadway production of "Queen High" are in the film. They are Charlie Ruggles and Nina Olivette. Ruggles has appeared as an outstanding talkie comedian in "Gentlemen of the Press," "Roadhouse Nights," "The Lady Lies" and "Young Man of Manhattan."

Stanley Smith, after a number of seasons in stock, joined the Hollywood film colony and made good in "Sweetie" and "Honey." He has a big fan following. Also a great singing voice.

Ginger Rogers, petite and peppy vodvillian and music comedy star, who made a decided hit in her first picture, "Young Man of Manhattan" wherein she played the frivolous society adolescent, does a great job as the young girl who wants to make good in business.

Charlie Chase in "Whispering Whoopee," and Fox Movietone News complete the program.

The merger suit in progress at Youngstown, Ohio, disclosed the fact that Charles M. Schwab, president of Bethlehem Steel, draws a straight salary of \$150,000 a year—no bonus.

The Consolidated Steel Co., largest steel fabricating company on the Pacific coast, has bought a 50-acre tract at Slauson and Eastern avenues, Los Angeles, and will begin immediately the construction of a plant there.

Five-cent honey is staring California honey producers in the face. The price has dropped to that. Retaliatory tariff legislation passed by Germany is credited with responsibility for the slump, that Nation offering the largest foreign market for California honey.

California's 14 public institutions now hold a total population of 22,656, of which 18,963 are residents of the institutions and the remaining on parole. To take care of this big family, 198 trained medical and professional men and women are required, in addition to 2,662 nurses, attendants and other employees. The payroll of these institutions is nearly three millions a year.

Lonely Oscar Tannert of San Francisco, 87, says he was vamped by Mrs. Katherine Shannon, 50. As soon as they were married, she sent Oscar to the hospital, dug up his life savings—seventeen \$20 gold pieces—from the backyard and disappeared.

While the automobile industry boosted the population increases of South Bend and Elkhart 46.6 and 36.7 per cent respectively, Indiana's census figures show an increase for the State of only 10.1 per cent during the last decade, the population being 3,225,418, an increase of 295,028.

The attention California is paying to tuberculosis has cut the death rate from this disease almost in half during the last 14 years. In 1915 the rate was 189 per 100,000 of population. In 1929 it was 106.7 per 100,000, according to figures taken in the census. The number of deaths in this state from the disease last year was 5855.

Maud Lee Mudd Gordon Wilson, Seneca-Osage Indian girl who became rich from royalties in the Osage oil fields, was born near Tulsa, married in Council Bluffs, Iowa, spent her honeymoon in Southern California, and now she has parted with Earl E. Gordon, her husband, and \$30,000 of the oil royalties by a decree of divorce in the Oklahoma courts, where her husband charged her with desertion.

The unemployment situation is evidently not nearly as bad in the Central States as the calamity howlers would have us believe. The census bureau reports that in Indiana, Illinois, Wisconsin, Iowa and Michigan the percentage of those "out of employment, able to work and hunting a job" to be 1.8 per cent. The rural districts and country towns showed the highest averages.

California is holding her own as the most "air-minded" state in the Union. She leads all other states in number of airports and landing fields, with a total of 164. Texas is second with 115, while Ohio and Pennsylvania, with 85 each, are tied for third place. California also has the largest number of municipal and commercial airports in the nation.

Santa Barbara is about to join Long Beach as one of the world's most unusual cities. It has made an agreement with the Southern Edison Company looking to the removal of all street car tracks from its streets. It plans to keep them free of car tracks for all time. When the Union Pacific recently discontinued its last transcontinental train into Long Beach, that became the world's largest city without railroad passenger service.

Mr. and Mrs. L. B. Munger of Long Beach spent the week-end at their cottage "Suits Us."

Los Angeles county led the Nation in the matter of real estate activity during the first six months of this year. Its transfers totaled more than \$198,000,000. Cook county (Chicago) trailed with \$151,000,000. In the same period New York was the only city in the country that exceeded the volume of construction established by the western metropolises.

James Heasley suffered a painful fall Friday night while taking down decorations put up for the water carnival. A tree limb that he was holding onto broke and carried him with it. He suffered a sprained wrist and elbow and other painful injuries but is still on the job at the Canyon swimming pool.

PUBLIC NOTICE IS HEREBY GIVEN that on Tuesday, the 12 day of August, 1930, at 12 o'clock Noon of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

What To Plant — What To Do

By JESSIE WARD RUSSELL

MORE ABOUT AVOCADOS

HERE has just been another meeting of avocado growers at La Habra Heights. All the old timers were there and we get a great kick of meeting together, every so often, to swap ideas. The avocado industry is so new and there is so much yet to learn that we all hope to learn something new from our fellow growers.

The subject of discussion this time was "production" and we were fortunate enough to have with us Prof. Hodgson of the University of California, College of Agriculture. He has been making an extensive study of avocado culture from the scientific point of view. As yet, he says, his views are theories and not facts as he has not had time to work them out in a practical way.

The avocado has one characteristic that is hard in the marketing of the fruit and that is, that it fruits heavily one year and rests more or less the next. When one tree rests it seems as if most of the others do, too. It would be all right if half of the trees bore heavily one year and half, the next year and so on, then we would have a uniform crop. But they do not do it that way; they all get the same idea the same season. So, we have a bumper crop one year and a small crop the next and prices are either away up, as they were this year, or they are away down as they are expected to be this coming season.

Now what we are all so anxious about, is a way to control the trees so that there will be more uniform crops. He has some good ideas on the subject. One of them is the controlling of the crop by thinning the fruit.

The avocado tree exhausts itself when it bears a heavy crop, so that it has no reserve strength to produce the next season. We personally know that this is true because we have demonstrated it right at our nursery. Trees we have thinned have borne good crops the following season and trees we have not touched did not bear so well. I believe that if a tree is stripped of all its fruit on a bumper crop year that you will have fruit on the off year when others are getting very little and when the price is high.

Another point that Prof. Hodgson brought out that sounds rea-

Farm Advisor Estimates Bigger Avocado Crop

This year's avocado crop in Southern California will be about a thousand per cent greater than last year's in the estimation of County Farm Advisor M. B. Rounds, who has just checked reports from Los Angeles and surrounding counties. The quality here will also surpass that of last year, he believes, and reports from his territory indicate that citrus crops will be uncommonly heavy, but as to walnuts—not so good.

"There is every indication, Rounds says, 'that the coming crop—the 1931 crop—of avocados will be exceptionally fine. In fact, growers are predicting it will run 1000 per cent heavier than last year.'"

sonable, is that the tree needs food in the early spring in the form of quick-acting nitrates. He says that an evergreen tree like the avocado, does not store up food as the deciduous trees do, but that it lives from hand-to-mouth and it needs lots of food to start it into growth early in the spring and that the winter rains have probably washed out all the food that might have been there for its use.

So he advises using sulphate of ammonia, nitrate of lime, blood-meal or any good fertilizer which is composed of quick acting nitrogen.

Growers Of Citrus Warned Against An Orchard Disease

Citrus growers have been warned by M. B. Rounds, county farm advisor, to be on the alert against a disease known as oak root fungus or armillaria. Whether the citrus grower knows it or not, he says, there are a great many roots which have oak root fungus infected trees. These citrus trees do not show the trouble until the top becomes affected. The symptoms in the top are constant dying back of the healthy shoots, even though the leaves on the tree appear to be green and fairly healthy. It travels from tree to tree by means of the roots and the area soon enlarges to such an extent that the cost of prevention and the loss in trees is considerable.

The cause of the disease is a fungus which lives on the live roots of the citrus tree, and when the infection increases to the extent that most of the roots are affected, the tree dies.

The farm advisor states that those interested in control measures will find it profitable to attend a public demonstration which will be held August 19 at the G. W. Brink orchard, south of Claremont on Alexander avenue.

CROPS ARE HURRIED BUT NOT INJURED BY ABNORMAL WEATHER

SACRAMENTO, AUGUST 8—(UP)—Warm weather during the past two weeks has materially hastened harvest of the California truck crop, according to a survey by the Federal-State cooperative crop reporting service.

No serious damage has been reported because of the heat and all crops started by an abnormally cool early summer are in fine condition.

An increase of over 5,000 acres for late tomatoes is reported for the state for the coming season over last year. Planting has now been completed in all sections of the state, with 20,900 acres set out.

Thatcher Will Speak At Picnic Of Iowans

Hugh A. Thatcher, Pomona's candidate for Supervisor from the First district, is to be one of the speakers at the great out-pouring of former Iowans at Bixby Park, Long Beach, tomorrow. He was an honor guest at the Breakfast Club, Arcadia, and the dinner tendered Governor Young in Pomona yesterday. A big rally and automobile parade in interest of his candidacy in Long Beach is being arranged by Mrs. Mary O. Lowther, president of the Woman's Republican Study Club. Mr. Thatcher will close his speaking engagement of the campaign with meetings in Pasadena August 15 and in Long Beach, August 20.

New 'Golden Voice' Radio Premiere Here Is Dramatic

Mark Smith, general manager of Ray Thomas, Inc., Southern California distributors, explained the new features of the new Atwater Kent "Golden Voice" radio which was given a dramatic premiere showing to 700 dealers and newspapermen in the banquet hall of the Los Angeles Elks club on Wednesday.

While his audience sat in the banquet room the first chords of "Anchors Aweigh" filtered mysteriously through the room over radio station KECA from the National Broadcasting Company's nationwide hookup, and Mr. Smith unveiled the new radio cleverly concealed at the head of the banquet table.

Announcing the Organization of the Sierra Madre Building-Loan Association

Due to the growth and popularity of Building and Loan Associations in Southern California it is not necessary to detail their purpose and the service they perform. Almost every city of any size has its local Association.

Your own home Association has been formed to encourage and assist in home ownership and home modernizing. Also to promote systematic thrift. This will favorably reflect in our community continuing its growth through the medium of more contented home owners choosing this favored city. This will help to stabilize our property values. It is also a means of improving and modernizing homes and living conditions.

The affairs of your association will be conducted on an economical basis in every respect. This association like all others is governed by strict rules and regulations of the State and is at all times under State supervision.

The authorized capital is 750 shares of guarantee capital stock of \$100 a share par value. 250 shares are to be sold at \$130 a share (\$100 for guarantee capital fund—\$30 for surplus fund) before we commence actual operation. 176 shares have already been subscribed. The remaining 74 shares are now offered to the people of Sierra Madre. It is seldom that guarantee capital stock is offered the public but the incorporators of this association want it to be 100% Sierra Madre in ownership as well as 100% for Sierra Madre.

No money has been spent or will be spent for promotion charges or the sale of the guarantee capital stock. The officers and directors are paying the same price for their stock that it is offered to you for—\$130 a share. Stock subscription payments are made to the Sierra Madre Savings Bank which will act as escrow agent until the issue is fully subscribed. Subscriptions will be received for one share up and will be honored in the order received. Act now if you want to take advantage of this opportunity.

If further information is desired call at 36 West Central Avenue or phone 309 for one of the directors to see you.
